

# Important Notice

We're upgrading electrical service in your neighbourhood

March 30, 2017

Dear Valued Customer:

**Re: IMPORTANT NOTICE: Overhead Construction  
Project Wiltshire Phase 2 (X13174)**

Toronto Hydro is planning to rebuild the aging overhead electrical system in your community to help improve service reliability. The rebuild includes upgrading overhead electrical cables and replacing hydro poles within the City of Toronto's public property allowance in front of or adjacent to your lot.

The civil and electrical portions of this project are expected to begin by **mid April 2017** with an approximate completion date of **late December 2017**. The approximate boundaries include **St. Clair Avenue West** (North), **Wiltshire Avenue** (East), **Davenport Road** (South) and **Gillespie Avenue** (West). Throughout this project, power interruptions may be necessary to switch from the old to the new electrical system and we intend to provide you with advance notice prior to any planned interruptions.

Toronto Hydro crews and contractors will take extra care and precautions around your property. Please be advised that as a result of the project, our contractor may be trimming a number of the overgrown trees on the public road allowance in order to accommodate new hydro infrastructure. Upon project completion, affected areas will be restored.

We appreciate your cooperation and ask that you exercise caution around construction areas. We look forward to working with you.

For further information on **Project Wiltshire Phase 2**, please reference the contact information below.

Sincerely,

Fabian C.  
Customer Operations Representative
