

# THE EGLINTON CROSTOWN LIGHT RAIL TRANSIT PROJECT

## Construction Update

EGLINTON  
**CROSTOWN**

Information as of May 17, 2017

### What is the Crosstown?

Metrolinx is building the Eglinton Crosstown, Toronto's new 19-kilometre light rail transit (LRT) line that will run along Eglinton Avenue with a central 10 km underground section. The Crosstown will connect Mount Dennis in the west to Kennedy Road in the east, and the new service will be up to 60% faster than the bus service today. With 25 stations and stops and connections to 3 TTC subway stations, 54 local bus routes, 3 GO Transit lines and the UP Express, the Crosstown will improve travel times and change the way we move through the heart of the city.

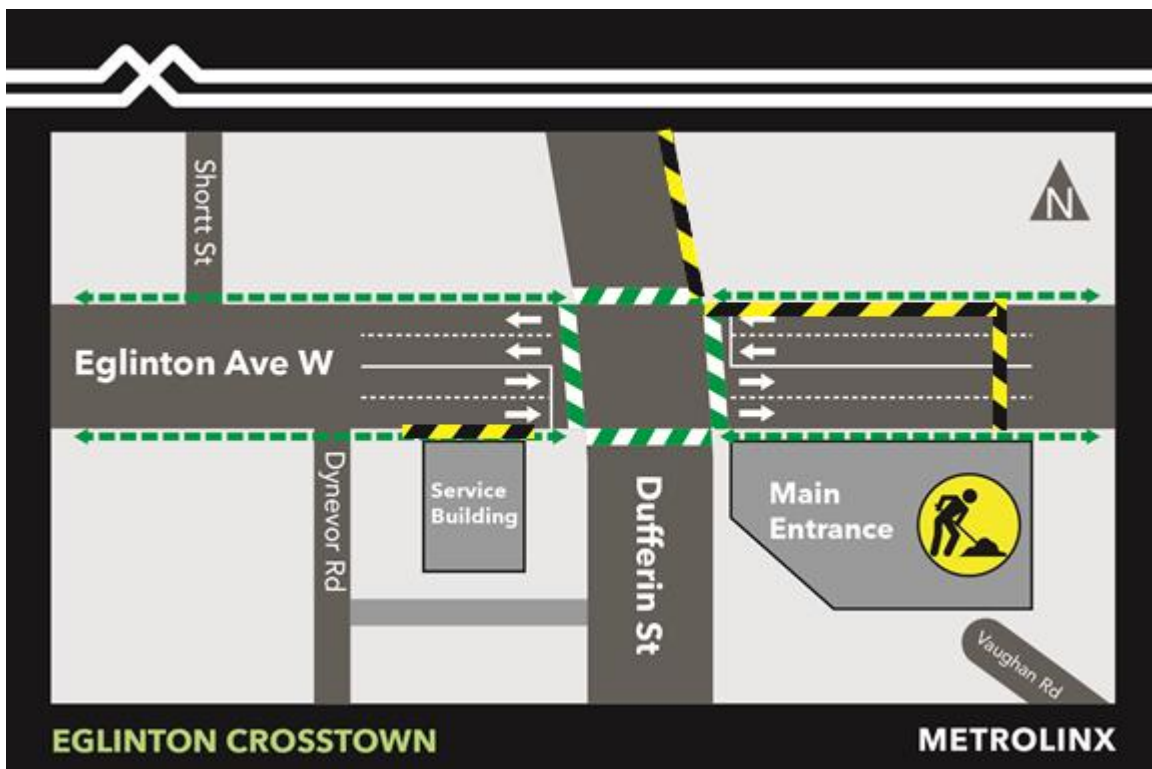

## Watermain Valve Installation and Servicing Work at Fairbank Station

### What Work is Taking Place?

In advance of support of excavation in the roadway, crews will install a new valve in the existing, operating watermain and perform service work on the main at the intersection of Eglinton Avenue West and Dufferin Street. Rolling lane closures will be in effect to accommodate this work.

### Timing

- Beginning as early as May 12 for approximately one (1) week
- This work will be conducted between the hours of 7:00 AM and 11:00 PM, seven days a week.
- This work may be rescheduled due to weather or unforeseen circumstances

### What to Expect

- Temporary rolling lane closures will be in effect along Dufferin Street and Eglinton Avenue West

 [instagram.com/eglinton\\_crosstown](https://instagram.com/eglinton_crosstown)

- Temporary pedestrian rerouting may be in effect.
- Pedestrians and motorists can expect delays when travelling through the intersection.
- Noise caused by construction equipment and trucks can be expected
- As always, please take care when travelling near work sites

**Thank you for your patience as we work to build this important project**

Please support your local businesses during construction.
