Inspection and Cleaning of Sewer Main on St. Clair Avenue West from 1799 St. Clair Avenue West to 1799 St. Clair Avenue West

Contract: 17TW-OS-07CWD
Construction Window: May 28 - Jun. 22, 2018
Time on the Street: 1 - 5 Days

The City of Toronto will be inspecting and cleaning the sewer main in your area during the above noted construction window. This project is part of the Council-approved Capital Works Program to renew our aging infrastructure, reduce the risk of leaks, and ensure continued long-term reliable sewer service.

MAP OF WORK AREA

WORK DETAILS

Inspection and Condition Assessment of the sewer main will involve:

- Flushing the sewer with high pressure water to remove any debris.
- Inspecting the sewer with a closed circuit TV (CCTV) camera to verify that it has been adequately cleaned.

- If the sewer segment requires relining, measurements will also be taken at this stage for a custom structural liner which will be installed within the sewer at a later date once it has been manufactured. A separate City notice will be issued at least two weeks in advance of the relining work.

For each segment of sewer, the work may take up to 12 hours depending on the length and condition of the sewer pipe being rehabilitated.

Of note: Access to the sewer is made through maintenance holes on the street; in most cases, excavation is not required. If the CCTV uncover the need for localized pipe repairs that require excavation, the area will be restored with sod and/or asphalt once construction is complete.

WHAT TO EXPECT DURING CONSTRUCTION

	<p>Overnight Work Hours: In an effort to minimize traffic disruption and congestion, work will take place from 7:00 p.m. to 6:00 a.m., Monday to Friday. Please note that work may extend beyond this window in special circumstances (e.g. access issues, heavy calcite buildup within pipe, etc.).</p> <p>Note: Work will not take place on statutory holidays.</p>
	<p>Service Disruptions: There will be <u>no disruptions</u> to your water or sewer services.</p>
	<p>Construction Noise: You may experience intermittent noise and vibration during construction (from vacuum trucks, power generators, air compressors, etc.). All work will comply with the City of Toronto's Noise Bylaw.</p> <p>Plumbing Fixtures: Some plumbing fixtures (toilets, etc.) may make gurgling noises during this time.</p>
	<p>Road and Sidewalk Access: In order to complete the work in a safe manner, there will be road and sidewalk restrictions within the construction work zone. Access for emergency vehicles will be maintained at all times.</p> <p>Driveway Access: Typically, driveway access will not be restricted. If temporary restrictions to your driveway are necessary, the contractor will notify you directly in advance of the work.</p>
	<p>Traffic Management: Efforts have been made to manage traffic in the area for the safety of workers, road users and residents. Road users may experience delays as a result of increased traffic on nearby main and side streets if temporary road closures or lane reductions in the work area are required to complete the work safely.</p>

	<p>Parking: Parking in the active work zone is not permitted due to space requirements for construction equipment and materials. If your parked vehicle affects the construction work, it will be re-located with no charge to the owner. If your vehicle is moved, please contact parking control for its location at 416-808-2222.</p> <p>You may park outside of the inspection work zone. City Parking Officers will be advised not to issue tickets for “Parking in Excess of Three Hours” on affected streets. Tickets will be issued for all other violations, such as parking too close to a corner or fire hydrant and other restricted areas.</p>
	<p>Garbage & Recycling: Please follow your normal routine. If required, the contractor will move bins to an appropriate location and return them. <i>Please ensure that you label your bins with your address.</i></p>
