

# New SmartTrack | Stations

JOIN US FOR LIVE, ONLINE TOWN HALLS ON JUNE 18, 20 AND 21

The City, Metrolinx and TTC are working together to bring more transit to communities across the City. To achieve this we are looking at ways to improve the connectivity of the transit network through the introduction of new SmartTrack/GO stations. Metrolinx and the City of Toronto, as co-proponents, will be hosting online town halls to consult on SmartTrack/GO stations, in accordance with the Transit Project Assessment Process (TPAP) under *Ontario Regulation 231/08: Transit Projects and Metrolinx Undertakings*. At the online town halls, we will provide an update on the work underway, including environmental studies, for the new SmartTrack/GO stations. You will also have the opportunity to ask questions and provide comments about the project.

Before the online town halls, we recommend that you visit our new interactive map at [smartrack.to/socialpinpoint](http://smartrack.to/socialpinpoint)

## ONLINE TOWN HALL DETAILS

**MONDAY, JUNE 18, 2018**

7:00 pm – 8:00 pm

Can't attend live? We will be uploading recordings and transcripts of the online town halls on our websites: [smartrack.to](http://smartrack.to) and [www.metrolinx.com/newstations](http://www.metrolinx.com/newstations).

The City of Toronto's SmartTrack concept will use the Metrolinx GO network to provide additional and more frequent transit service in the City of Toronto. Specifically, SmartTrack is an enhancement of the Metrolinx Regional Express Rail (RER) program. RER will significantly increase rail service across the GO network by providing electrified, 15 minutes or better service on five GO corridors in core areas.

If you have questions or comments or would like to be added to the mailing list, please contact either the City of Toronto or Metrolinx at:
